## LABOR KING TAKES WHACK AT HAWAII

WASHINGTON, June 10.—Charging that the recently imported Russian laborers in Hawaii were being held in virtual peonage upon the sugar plantations upon the sugar plantations living wage and being at the mercy of the corporation managers, Samuel Gompers, president of the American Federation of Labor, yesterday lodged a protest with Secretary of Commerce and Labor Nagel.

The Labor leader reported much that has already been charged against the Hawaiian planters in connection with the Russian labor, urging that in view of the fact that the Russians had been brought into this country in violation of the alien contract labor laws, the Russians should be deported at the expense of the planters and the latter should be charged and tried for the illegal importing of the aliens.

### TAFT GETTING EVEN.

WASHINGTON, June 10.—President Taft yesterday refused to receive representative Harrison of New York because of the latter's criticism of him in connection with the Ballinger-Pinchot investigation.

Representative Harrison had charged that the President and Attorney General Wickersham had attempted to mislead the investigation committee and congress by backdating one of the letters in connection with the Glavis charges against the secretary of the interior.

### THIRD LINE OF DEFENSE.

WASHINGTON, June 10.—Having for its object the federation of all military patriotic organizations throughout the United States for the purpose of forming a third line of defense, to be called upon after the regulars and the militia in the event of war, Senator Dixon of Montana yesterday introduced a bill for the incorporation of war veterans into a reserve corps.

### NOT HEART FAILURE, KILLED.

NAPLES, June 10.—The American reported killed on Vesuvius as a result of the recent seismic disturbance there is Dr. Jules Simon of San Francisco. An examination of his body revealed

veils the fact that death was due to external causes, as had been at first thought.

### POSTAL BILL PASSES HOUSE.

WASHINGTON, June 10.—By a majority of ninety-four votes the house yesterday passed the amended postal savings bank bill, which will now go to conference committee, having already been passed in the senate. The vote on the measure stood 195 for and 101 against.

### STRANDED LABORERS.

WASHINGTON, June 10.—The mayor of Cardova, Alaska, has cabled to the authorities here for authority to transport two hundred Montenegrin laborers, who are stranded in that northern town. He wants to send them at public expense to California or Seattle.

### AGREES TO ARBITRATION.

WASHINGTON, June 10.—The Mexican ambassador has notified the department of state that Mexico has agreed to the terms of arbitration proposed by the United States for the settlement of the Chemizal zone controversy.

### DOES NOT WANT

HAMMERSTEIN  
NEW YORK, June 10.—Oscar Hammerstein, the well-known theater manager and operahouse owner, has been refused permission to visit Russia, where he wished to go to engage a number of Russian dancers for his American production. The refusal of the Russian legation to issue Hammerstein a passport is believed to be based on the fact that he is a Jew.

### BIPLANE PLUNGES INTO CROWD.

BUDAPEST, Hungary, June 10.—Frey, a German aviator, who was making a test here in training for the great aviation meet to commence a week from Sunday, lost control of his biplane yesterday, the machine dashing into the grandstand among the spectators gathered to watch his flight. Six were struck by the biplane and injured, two of the victims of the accident being expected to die.

## DOES PANAMA NEED FORTS?

(Wilmington, Vt., Times.)

In military and naval circles there is much interest manifested with reference to the plans for fortifying the Panama Canal. It appears that the military strategists have planned for much stronger fortifications on the Pacific than on the Atlantic side. This is thought to be a great compliment to a certain insular nation 5,000 miles across the Pacific. Both sides of the canal, it is said, are to be put in a fortified condition so strong that no reflecting nation will wish to attack them. It seems that we with our outlying fortified picket posts, as they may be called, at Porto Rico and in Cuba and Hawaii, ought to be able to protect a powerfully fortified canal, but it may be hoped that we will never have to make a practical demonstration of our ability to do so.

Our ex-President, it seems from the morning papers, is still repeating his "peace with a big stick" speech in Europe. Only Friday he made it in Christiania. England has never yet had to defend the Suez Canal, but possibly this is because of her powerfully fortified defenses at Gibraltar, at Port Said, and her control of the entrance to the Red Sea at Aden; or, to put in a nutshell, her control of the waters of the world. It is believed that finally the United States will be found in a position, should Mr. Roosevelt's suggestion at Christiania for a coalition of all the great powers in favor of peace be adopted, to participate in the formation of a peace compact binding not only the first-class signatory powers to keep the peace among themselves, but to prevent warlike strife among the powers not rated as first, or even second class.

war when the Spanish warship upon which he was serving was destroyed by the fire of the American ships of Dewey's fleet off Cavite.

According to Perello's story, 258 members of the crew of 527 of the ship on which he was serving, swam ashore at Noveleta. Here they were captured by the Tagalos and taken to Taytay island, where they were cruelly treated. They were employed generally as draft animals. Last January 30 of the prisoners threw themselves into the sea in a desperate attempt to escape. Thirty-five of the number were drowned and 27 returned to the shore. The other 28 were sheltered on the American steamer Baltimore and landed at Bordeaux from which point they walked to the Spanish frontier and thence reached their homes.

Perello declares that many Spaniards are still prisoners in the Philippines. He gives the names of some of them.

## The Last Drop as Good as The First

"There's a reason" for it. Everything that goes into it is made in the Sherwin-Williams factory. The wonderful growth in the use of S-W-P. for houses is the very natural result of making the best paint that it is possible to make. Quality is on your mind long after the price has faded away. The real pleasure the Little Paint Man finds in using Sherwin-Williams paint, we find in selling it.

It makes friends for us. Anything but the best on your house is expensive. You are going to leave the paint you buy out of doors. Everything else is under cover except the paint. That must do the covering for you. We know it so well that we use it for all our own buildings.
